

# Juliet™

30CM HIGH DEFINITION CUTTER **Siser®**

For the next chapter in your crafting story.

# SIMPLY ADVANCED

The Juliet™ by Siser® has been designed to be not only advanced, but intuitive as well. Loaded with powerful features that are easy to understand, Juliet is built to seamlessly adapt to your workflow - no matter your experience or skill level.

With a high quality motor that's up to 60% faster than other desktop cutters while emitting nearly half as much noise, an ultra-precise machine head, and adjustable pinch-roller feeding system, Juliet earns the title of a high definition cutter.

# PACKED WITH FEATURES

Take the guesswork out of cutting. Juliet comes with dozens of pre-set cut settings for all Siser materials. Plus, you can even create and edit your own custom cut settings!

Thanks to adjustable pinch rollers, you're not limited to a specific cut area. Utilize the entire width of the cutter for your projects - and you can choose whether or not to use a cutting mat!

Have a jumbled mess of cords coming out of your computer? We get it. That's why Juliet can connect to your PC or Mac via WiFi for a reliable wireless experience!

Print & cut projects are no problem! Thanks to a camera built-in to the machine head, Juliet can read registration marks and cut full color designs with ease.

Small details equal huge potential! Thanks to its pinpoint accuracy, Juliet can cut some of the most intricate details with precision down to 0.01 mm without skipping a beat.

Juliet does more than just cut! Create beautifully drawn designs using Siser Sublimation Markers (or other drawing utensils) with the included marker adapter.

# LEONARDO™ DESIGN STUDIO

A powerful cutter is nothing without powerful software. That's why Leonardo™ Design Studio was created to be the perfect companion software to the Juliet cutter. Easily connect Juliet to Leonardo Design Studio via either the included USB cable or a WiFi connection and you're ready to go.

The best part? Leonardo Design Studio isn't just cut software - it's also an incredibly versatile workspace. Use the built-in canvas and tools to create your own artwork, or download pre-made files from the extensive art library. You can also view swatches and specs for every Siser® material, get inspiration from our handmade projects, learn new skills with tutorial videos, and so much more - all within a single software!

Leonardo Design Studio is free with every Juliet purchase.
